REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a zoom lens having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including the recited relationships/configurations of each of the lens groups and the lens elements, as well as the specific movements recited when zooming from a short focal end to a long focal end, and wherein the third positive lens positioned nearest the image side is a plastic aspheric lens. Therefore, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

3. The drawings were received on 3-11-04. These drawings are approved.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
